Response to Amendment

1. This action is responsive to RCE and amendments submitted on 8/25/2006.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because all the blocks in the drawings are not labeled accordingly (please see Non-Final rejection dated 4/6/2005). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-12 allowed over prior art of record.

The following is an examiner's statement of reasons for allowance

The closest prior art of record, Tuttlebee (BG 2344009) fails to disclose the amended claimed method steps of “selective delivery of data by organizing the data in hierarchical information structure, associating with multiple status indicators, ascertaining a present status of receiving the data and comparing the ascertained status with the status indicators” as in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
